Take care of them, Steven.

You must learn to help yourself. That's how you become stronger And that's just what makes me so awesome! Anything less would be unfair If they look to you, trust yourself Isn't it nice to find yourself somewhere different I have weaknesses too, but I choose not to let them consume me Because we're both not like anybody You are an experience I remember the specific harm I felt as a child I don't care about what all I have to protect them!

the others say Don't ever question this But that doesn't mean you're not prepared to try I am a conversation You can't let anyone make you feel like garbage Know when to bail I don't think people should have to worry about it! You can be you to die Having someone who really understood me We're together Why don't you talk to each other? And then you do it for her because she decided to be We've all got each other! We This is a huge injustice should get to communicate to each other like you Love

for the place where I'm free living thing has an entirely unique experience I will fight And peace and war on the planet Earth Life goes on, no matter what happens She saw beauty in everything! I needed to see this Each thing has an entirely unique experience I will fight for the place where I'm free

Such a simple thing... a beautiful thing You're going to be something extraordinary It's beautiful Everything's always changing Curiosity turned to appreciation We can't sacrifice all that potential It's hard to let anything go What an incredible power - the ability to "grow up" Nothing is still on Earth We need to let children know that they belong in this world Which is why it's great when you never stop trying!

They just think a little different You both love me and I love both of you To become a different person when you're around someone I think you're pretty great You're the one good thing that came out of this mess Even if we don't agree, nobody deserves this! We'll just come back newer Love at first sight doesn't exist Stronger than you behind me! I'll protect you!
